

ANNOUNCEMENT

MESH Ottawa has cancelled all programs until further notice due to a shortage of volunteers and construction on Wellington Street that is preventing safe passage to the Hintonburg Community Centre. Please contact me at president@meshottawa.org should you wish to become a volunteer. We do not have a list of physicians treating CFS/ME and/or FMS. Please refer to the Ontario College of Physicians and Surgeons to search for doctors who are taking new patients. Most likely you will require a referral from your family physician if you want an appointment with a Rheumatologist who are doctors trained in diagnosing Fibromyalgia Syndrome (FMS) and Arthritis. CFS tend to be referred to a neurologist by their family doctors as well. For disability insurance issues, please contact a lawyer who specializes in contract law. Most good lawyers will give at least a 1/2 hour free consultation appointment. Thank you for your cooperation and understanding
Carole Roy
President
